

Tama Wall or Freestanding Shower

Code: BCTFS

Shower Rose:

200mm dia

Reach 500mm (centre to centre)

Height 2000mm (approx.)

Shower Standpipe:

65mm dia/32mm dia

Overall Height 2200mm

Tap Height 1000mm (approx to
centre of taps)

Overall depth incl taps 140mm *Galvanised
freestanding base (concealed) supplied

Please note:

Can be supplied freestanding or wall
mounted- Please specify upon ordering

Wall mounting on timber requires
minimum 45mm depth timber blocking
behind finished wall.

Final water connections in ground. Hot and
cold water supply pipes to be extended to
within 500mm of base of shower. Shower
must be fully installed and connected prior
to tiling (or other floor finishes) of area at
the base of the shower.

To ensure baseplate is concealed, 60mm
minimum is required between underside of
tile, and concrete slab. Concrete may need
to be chased to achieve this depth

Freestanding model must be fixed to either
timber or concrete substrate.
